

Creator

```
classDiagram
    class Creator {
    }
    class ConcreteCreator {
    }
    ConcreteCreator --|> Creator
```

The diagram illustrates a class hierarchy. At the top is the 'Creator' class, represented by a rectangle with the name 'Creator' in the top section and two empty horizontal slots below. At the bottom is the 'ConcreteCreator' class, represented by a rectangle with the name 'ConcreteCreator' in the top section and two empty horizontal slots below. A vertical line connects the two classes, ending in an open triangle arrowhead pointing towards the 'Creator' class, which signifies that 'ConcreteCreator' inherits from 'Creator'.

ConcreteCreator
